II. **FINDINGS**

Background

The Minutes of the meeting written by Kari Papelbon are incorporated by reference into this decision. Please refer to these Minutes for a summary of the testimony.

Based on the application, testimony, exhibits, and other evidence the Development Review Board makes the following findings:

1. The subject properties, 59 Harvey Road and 58 Harvey Road, lie in the Scenic Preservation and Soil & Water Conservation zoning districts. These zoning district boundaries and provisions shall be shown on the plat.
2. The Applicant, Luther Martin, is applying for a boundary line adjustment between properties at 59 Harvey Road (HA059) and 58 Harvey Road (HA058x). Approximately 30 acres will be transferred from HA059 to HA058x. Approximately 10 acres will be retained with the existing dwelling at HA059.
3. The acreage to be conveyed will become part of the UVM Proctor Maple Research Center land and will be used for agricultural research.
4. A portion at the rear of the acreage to be conveyed and a portion at the rear of the retained parcel lie in the 1500-foot elevation zone. No structures subject to Town permitting shall be permitted in this zone. This zone and restriction shall appear on the plat.
5. No new roads or curb cuts have been requested. Access for the conveyed acreage will be via trails or woods roads. Access for the retained parcel will be via the existing driveway.

6. The applicant has received a letter from the Vermont Agency of Natural Resources confirming that the proposed boundary line adjustment is exempt from State wastewater and potable water supply permitting, and identifying a replacement septic area is not required as the new boundary line will be located more than 500 feet from the existing septic system at 59 Harvey Road.
7. Some record owners of property have changed due to sales of adjoining property. These owners shall be updated and shown on the plat.

III. DECISION

Based upon the findings above, and subject to any conditions listed below, the Development Review Board grants approval for the boundary line adjustment as presented at the hearing.

Conditions

1. The Scenic Preservation and Soil & Water Conservation zoning district boundaries and provisions shall be shown on the plat.
2. The 1500-foot elevation limit zone and provisions shall be shown on the plat. No structures subject to Town permitting shall be permitted in this zone.
3. All current record owners of adjoining properties shall be shown on the plat.
4. The deed reflecting the 30-acre conveyance from Luther Martin, HA059, to UVM Proctor Maple Research Center, HA058x, shall be recorded in the Town of Underhill Land Records.
5. All boundary line adjustment hearing and related fees shall be paid in full to the Zoning Administrator prior to filing the plat with the Town Clerk.

Dated at Underhill, Vermont this _____ day of _____, 2008.

Scott Tobin, Chair, Development Review Board
