Dear Dave and Marge,

I understand the United Church of Underhill is partnering with the Town of Underhill to apply for a planning grant from the VT Community Development Program. If received, that grant will help to support some of the costs in next steps for planning affordable housing to be located on the nine acre piece of property I am selling to your Church.

This letter is to verify the Church and its partners have my permission for site access to the property for purposes related to the planning grant.

If there is anything else I can do to assist in your efforts to secure funding for this project, please feel free to get back in touch at any time.

Sincerely,

A handwritten signature in black ink, appearing to read "Phil Jacobs", written over the word "Sincerely,".
