

Annual Plant Sale - Conservation Commission

Event Date

Sat, Jun 1 2024, 8 - 10am

This event starts promptly at 9am, so arrive early to peruse the offerings and stake out your first choice. When the moderator says "Go", you can take that plant to your gathering spot and stand by your second choice, and so on, until the plants are all gone.

We invite the town's gardeners to bring perennials, annuals, seedlings (flower or vegetable), shrubs, berries, or other healthy plants to share. Bring them at 8:45am in pots, bags, boxes, or any other type of container. You can also post "digging rights" if you have plants on your property to offer. Bring an index card describing the plants, when would be a good time to dig (peonies in the fall, etc.) and your name and contact information.
