Dear Andrew,

Since I will not be in Underhill on 29 October, I am writing to comment on the Conditional Use Review Hearing for ReTribe. Although I have no objection in principle to what they propose, given that there has been a violation of the original terms, I would like assurances that the total impact, especially in terms of traffic and noise, will not be greater than was agreed in the initial decision by the DRB.

Thank you very much.

Sincerely,

Elaine Herman
