August 21, 2007

Sue Kusserow and William Lewis
37 Beartown Road
Underhill, VT 05489

Dear Sue and William:

On August 21, 2007, the Underhill Development Review Board met with you and approved your sketch plan application for the boundary line adjustment between your land located at 37 Beartown Road and the land located at 39 Beartown Road, owned by Adrie Kusserow and Robert Lair. As discussed, you may include the 1+ acre boundary line adjustment between Adrie and Robert's land at BE039 and your land at BE053 with your boundary line adjustment plan for BE037. Please note that the Board approved the sketch plan with the stipulation that the proposed corridor between BE037 and BE053 be designated as "not for development."

Once you have finalized your plan, please contact us to schedule a boundary line adjustment review before the Board. Materials required for that review are a survey showing the new property lines of all parcels and existing lines that will not change, and a deferral permit or its equivalent from the wastewater division of the state Department of Environmental Conservation. If you have any questions, please do not hesitate to contact Chris or myself at the information above.

Sincerely,

Kari Papelbon
