2. Please submit a short statement explaining why a variance is being sought. Please address any easements or covenants that may be attached to the property if not shown on the site plan.

  - a. There are unique physical circumstances or conditions (e.g. lot irregularities, lot narrowness, shallowness of lot size and/or shape, exceptional topography, or other physical conditions peculiar to the particular property) and that an unnecessary hardship is due to these conditions, and not the circumstances or conditions generally created by the provisions of the bylaw in the neighborhood or district in which the property is location.
  - b. Because of the physical circumstances or conditions identified above, there is no possibility that the property can be developed in strict conformity with the provisions of the bylaw, and that the authorization of a variance is therefore a necessary to enable the reasonable use of the property.
  - c. The unnecessary hardship has not been created by the appellant.
  - d. The variance, if authorized, will not alter the essential character of the neighborhood or district in which the property is located, substantially, or permanently impair the appropriate use or development of adjacent property, reduce access to renewable energy resources, or be detrimental to the public welfare.
  - e. The variance, if authorized, will represent the minimum variance that will afford relief and will represent the least deviation possible from the bylaw and from the plan.

In the written statement, required under #2 above, please address each of the preceding conditions (a-e), specifically advising why the proposed project satisfies those conditions.
