Gravel Pit Task Force

Minutes:

Present: Dan Close, Luana Nedrich, Seth Friedman. Lea Van Winkle

Select board Member Brad Holden Gave us the results of the Map Query locating areas of Underhill showing soils possibly suitable for gravel and sand.

Large print out available and task force spent the time indentifying potentials parcels on map.

Luana read minutes from early discussions with Albertini and Gregson dated February 7<sup>th</sup> 2088. In these minutes the owners of this site suggested a lease option with the town for extracting soils and the town selectmen at that time felt it would be best to purchase, not lease.
